

# Party Girl

Miranda Cosgrove

1. Quarter past five and it feels  
like another dimension  
Everybody knows that  
we're going out tonight  
Somebody says no and  
thats when I remember to mention  
Were gonna party  
party like its 1999

X: Chordless  
So pick me up lets go  
Go far away from home  
It doesnt matter where  
cause baby I just wanna Rome  
Were putting on a show  
Varieties and vogue  
Lets do it Lets do it  
Lets do it

R: You can take the  
darkness out of the night  
You can take the  
tick tock out of time  
Go and take the  
angry out of the world  
But you can't take the party  
You can make a rocket  
blast into space  
You can make the earth  
into a better place  
Go and give me diamonds  
rubies and pearls  
But you can't take the party  
out of the girl

But you can't take the party  
out of the girl

2. Paris in the spring and  
New York in the middle of summer  
I dont care where we go  
as long as everyone is there  
And if it feels slow we  
dance till it sounds like thunder  
And when the ground starts shaking  
thats when you know you better beware

X: Chordless...

R: You can take the...

\*: Take me away from  
the bad day  
I just wanna play

R: You can take the...

But you can't take the party  
out of the girl  
But you can't take the party  
out of the girl  
But you can't take the party
