

## Desperation

Miranda Lambert

Throw a dog a bone I'll take it if I have to  
Go real fast like there's somewhere we can get to  
What's the use of standing right there on the edge if there ain't  
't nowhere to fall  
What's the use in hanging on tight to the phone if nobody might  
call

Desperation

There's danger in frustration  
Complicated words slipping off of your tongue and ain't one of  
them the truth  
I'm still desperate for you

Tell it like a lie live it like a movie  
Give a heart away like it don't mean nothing to me  
What's the use in making all the plans that we made if you were  
n't gonna go  
What's the use of slapping on a smile for a face if your eyes d  
on't wanna show

Desperation

There's danger in frustration  
Complicated words slipping off of your tongue and ain't one of  
them the truth  
I'm still desperate for you

Well it's too damn bad you didn't have a chance to make me your  
best friend  
You were too caught up in giving too much up and not doing what  
you should have been

Desperation

There's danger in frustration  
Complicated words slipping off of your tongue and ain't one of  
them the truth  
I'm still desperate for you
