

# Maintain the Pain

Miranda Lambert

I put a bullet in my radio  
Something just hit me funny I don't know  
Just pulled the trigger going down the road  
You slam the door and knock me off the wire  
Then walk in lines and you been burning tires  
Slow and easy ain't that what you like?

It's insane it's in vain  
You stay to maintain the pain

I hear your name and then it burns a hole  
I swear I hate you but I can't let go  
The kind of feelings that you can't console

It's in all vain it's all insane  
I swear you'll stay  
I swear you'll stay to maintain the pain

It's all in vain it's all insane  
I swear you'll stay  
I swear you'll stay to main the pain

Maintain the pain
