

# Together We're Strong

Mireille Mathieu

A great man once said: Winter never fails to turn into Spring  
And though we're so different  
you and I  
when we're together  
Even the cold of December  
feels like the middle of May..  
You are the night I am the day  
you are the star that shows the way.  
You are the instrument I play  
you're all the words I long to say.  
You are the land I am the sea  
you are in counterpoint to me  
And we agree to disagree  
no need to lie.  
I only know when we're apart  
I only live with half a heart.  
I need your hand to play my card  
together we're strong  
we can't go wrong  
And now we know just what to do  
and how to get our meaning through.  
We're only one when we are two  
together we're strong.  
Together we're strong  
together we're strong  
Together we're strong  
together we're strong  
we can't go wrong.  
And every time your eyes meet mine  
I feel the world fall into line.  
I'm passing on that good luck sign  
let's keep hanging on.  
And now we know just what to do  
and how we get our meaning through.  
We're only one when we are two  
together we're strong.  
And I will always try to understand you  
I'll be there if you should need me  
Plan you in my life  
there's so much we can share with each other.  
But if we say goodbye it's not forever  
I can't lose you now I've found you  
I need you in my life  
'cause now you're in my life.  
And together we're strong  
there are so many ways of looking at the world  
Everyone has a different dream  
yours may not be the same as mine  
But when we're together  
we can make them all come true.  
You are the night I am the day  
you are the star that shows the way. . . .  
You are the night I am the day  
you are the star that shows the way  
You are the music to my song  
together we're strong.  
Together we're strong

together we're strong  
together we're strong.
