

Country girl

Miro Žbirka

Country girl, I don't wanna make you cry
Country girl, won't you only give a smile
Country girl, don't you see I have to go
Oh, little country girl
I'm leaving with a falling snow

Country girl, I don't wanna make you cry
Country girl, won't you only give a smile - ile
Country girl, don't you see I am not the one
Oh, little country girl
I'm leaving with a morning sun

Thank you for the days in windmill
That you're round
Wonder that I have to say clear
I'm in long to town
I've been with the streets of walls
Buildings and the night come shows
Thank you for the days in windmill
That I have to go down

Country girl, I don't wanna make you cry...

I know you are trying to hide
And I can understand
Lying in the countryside
Is for every man
But always I'm in factories
Backyards window place for trees
I don't want to trying to say
But I'm on my way

Country girl, I don't wanna make you cry...
