

Hero

Miro Žbirka

Every day I think about
How I used to be
You and I together in the classroom
Sitting like a fool in school
I just couldn't see
Thought I was protected by a silver spoon

Like a hero I will smile
On and on again
And you understand the game
And you come back to play

All my friends are far away
Now they live in town
I'm not the one that I would please to go to
Somewhere in the past they stay
Only live life one
Living in the way that we all used to

Like a hero I will smile...
Like a hero I will smile...

Well, I see your face
And it's your disgrace
And I know that you still cry
Cry out loud again

Every day I think about
How I used to be
You and I together in the classroom
Sitting like a fool in school
I just couldn't see
Thought I was protected by a silver spoon

Like a hero I will smile...
