

Honey

Miro Žbirka

Something's been born right here today
Hard is so wore, no words to say
All that I know, is what I feel
Something's been born, and that is real

Too well to see, more than the rest
Just you and me, we know the best
Life is a dram, when you're alone
Thank you for that, what you have shown

Honey - how did you know
That I will come to you and make you feel so
Honey - maybe you know
Maybe you know I need someone to love

Honey - how did you know...

Something's been born right here today
Hard is so wore, no words to say
All that I know, is what I feel
Something's been born, and that is real

Uuuh, don't you know what I feel?
My little lady, don't let it go...

Uuuuh...
