

My darling

Miro Žbirka

My darling, please don't take your love away
My darling, think about you every day
For your lips and for your charm
I've got to hold you in my arms
My darling, please don't take your love away

My darling, please don't take it all away
My darling, won't you listen to my pray?
Don't let me be alone
I wanna hear you on my telephone
My darling, please don't take it all away

Oh my love, I know for sure
It's only you and no-one more
I know I need you so
Oh my darling, never let me go
My darling, please don't take your love away
Oh my love, I know for sure...

My darling, please don't take your love away
My darling, please don't take your love away
My darling, think about you every day
For your lips and for your charm
I've got to hold you in my arms
My darling, please don't take your love away
