

Oh me oh my

Miro Žbirka

Girl you know I need you
Every single day
Even when I feel blue
You still find the way
Girl you know I need you
Every single night
When I'm down and out my love
You still find the light

R: Oh me, oh my
You make me sing,
you make me cry
Oh me, oh my
You're just a dream,
beautiful sky

Boy know I need you
Every single day
Even when I feel blue
You still find the way
Boy you know I need you
Every single night
When I'm down and out my love
You still find the light

R:

And when the rain comes in
I only need to feel your guiding hand
And when the rain comes in
It's you, my dear, who really understand

R:
