

# The love song

Miro Žbirka

First time that I saw you  
I must have been hypnotized  
There's something strange about you  
Something strange about your eyes  
You know I love you  
It makes me cry inside  
You know I love you  
It makes me cry inside

First time that I met you  
I knew you will be only one  
And if I'm going to lose you  
Baby, I just can't go on  
'cos you know I love you  
It makes me cry inside  
You know I love you  
It makes me cry inside

||:So, baby, don't you let me  
Don't you ever let me down  
'cos you're the only one I need  
And I will always be around:||

First time that I saw you  
I must have been hypnotized  
There's something strange about you  
Something strange about your eyes  
You know I love you  
It makes me cry inside  
You know I love you  
It makes me cry inside

First time that I met you  
I knew you will be only one  
And if I'm going to lose you  
Baby, I just can't go on  
You know I love you  
It makes me cry inside  
You know I love you  
It makes me cry inside

So, baby, don't you let me...
