

The love song

Miro Žbirka

First time that I saw you
I must have been hypnotized
There's something strange about you
Something strange about your eyes
You know I love you
It makes me cry inside
You know I love you
It makes me cry inside

First time that I met you
I knew you will be only one
And if I'm going to lose you
Baby, I just can't go on
'cos you know I love you
It makes me cry inside
You know I love you
It makes me cry inside

||:So, baby, don't you let me
Don't you ever let me down
'cos you're the only one I need
And I will always be around:||

First time that I saw you
I must have been hypnotized
There's something strange about you
Something strange about your eyes
You know I love you
It makes me cry inside
You know I love you
It makes me cry inside

First time that I met you
I knew you will be only one
And if I'm going to lose you
Baby, I just can't go on
You know I love you
It makes me cry inside
You know I love you
It makes me cry inside

So, baby, don't you let me...
