They'll Never Know

Ah Ah Ohhhhhhh Mis-Teeq Sometimes you get happy Sometimes you get blue No matter the reason life's about what you do A little by little you make it somehow No use for your worry the time is now. These days I'm walkin' on air Just just if you dare and we'll fly (we'll fly so high) These days I feel so alive Wherever we fall we'll survive. Some people look forward Some people look back It's now that we're living and thats a simple fact Don't ever forget it and don't be confused Don't live to regret it or you will lose. These days I'm walkin' on air Just jump if you dare and we'll fly (I'll fly so high) These days I feel so alive (I feel so alive) Wherever we fall we'll survive (Oh oh). These days I'm walkin on air (Walkin on air) Just jump if you dare and we'll fly (I'll fly so high) These days I feel so alive Wherever we fall we'll survive (wherever we fall we'll survive) Whatever we try Whatever we do We live and we die It's all up to you A new life will grow and follow it through And rivers will flow and dreams will come true. These days I'm walkin on air Just jump if you dare and we'll fly (we'll fly so high) These days I feel so alive (I feel so alive) Wherever we fall we'll survive (Oh we'll survive) These days I'm walkin on air (I'm walkin on air) Just jump if you dare and we'll fly (we'll fly so high) These days I feel so alive (I feel so alive) Wherever we fall we'll survive

Whatever we try Whatever we do Just jump if you dare and we'll fly Whatever we try Whatever we do Wherever we fall we'll survive These Days.
