

Fade Away

Misery Inc.

Weak as I am, caused by lunacy.
As deep as you can, you gotta bury me.
Truth you can't deny, your blue eyes will show.
Lies are gone by, but I know, but I know.

You are with the pain, you are with the pain.

Does it hurt forever. Say words, promise to go.
Leave me fade away.
Do we die together. Say words, promise to go.
Leave us fade away.

Can you feel the pain, it stays eternally.
Do you feel the shame, you gotta kill me.
Truth you can't deny, your blue eyes will show.
Lies are gone by, but I know, but I know.

You are with the pain, you are with the pain

Does it hurt forever.
Say words, promise to go. Leave me fade away.
Do we die together.
Say words promise to go. Leave us fade away.

Does it hurt forever.
Say words, promise to go, leave me fade away.
Do we die together.
Say words promise to go, leave us fade away.
Would it be better, not saying words,
promise to go, leave me fade away.
