

Hymn For Life

Misery Inc.

Why does it again have to be just me
who carries the burden like a puppet with a tray.
Give me one good reason,
why I let you shine on?
Shine on.

Profile your rage, profile your anger.
I can't do it, hate is better.

Tell me what I gotta do,
why should I save you?

Make it go away, fear is here to stay.
This hymn of life, I left behind.
Make it go away, fear is here to stay.
This fear of life, I left behind.

I don't fit in, I don't have the access.
My mind's a sin, my ticket to success.
With a loaded gun, I have much fun.
Please me good, please me you should.
Why should I save you?

Make it go away, fear is here to stay.
This hymn of life, I left behind.
Make it go away, fear is here to stay.
This fear of life, I left behind.

Tell me what I gotta do,
why should I save you?

This hymn of life, I left behind.
Make it go away, fear is here to stay.
This hymn of life, I left behind.
Make it go away, fear is here to stay.
This hymn of life, I left behind.
This fear of life, I left behind.
