

No More

Misery Inc.

Suffer more, bleed a tear.
Find a thing you'll really fear, finally you'll brake.
On your knees, let it go.
Pain will tell and let you know, finally you'll fake

Give me one shot, I'll do anything
Give me one shot, I'll go everywhere.

No more bleeding heart, wandering alone in the dark.
Everything will fall apart.

Head up high, try to be one
of those whose pleasures me, finally you'll brake.
Swallow your pride, feel the pain.
Lost has become your gain. Finally you'll hate.

Give me one shot, I'll do anything
Give me one shot, I'll go everywhere.
Give me one shot!

No more bleeding heart, wandering alone in the dark.
Everything will fall apart.
