

## Embracing Extinction

### Misery Index

We process the facts, and choke on the math  
Yet we can't come to terms with ourselves  
Gorge belly up to the table of wants  
It's "all you can eat" after all!

Embracing extinction, what higher form of life,  
Destroys his creations?... how far we've come to fall

Diet of all things, consumption run amok  
Dionysian days undone

We open the earth, to shit in our graves  
We rest on our laurels attained  
Bacchanal feasts, long out of date  
For two-legged beasts unrestrained

Embracing extinction, what higher form of life,  
Destroys his creations?... how far we've come to fall

Diet of all things, consumption run amok  
Dionysian days...undone
