Coma

Misery Signals

Press rewind
 Play it back in this dark room
 It's been so long
 I don't remember who we used to be

 Go slow
 Is it safe to come out again?
 In skin like stone
 Now I can't believe anyone anymore
 I wasted it on you

 They were sinking or swimming
 I was floating away

 On our own
 We see the world now for what its worth
 Undo what's done
 Before this heart destroys its host

 They were sinking or swimming
 I was floating away

 Reach into her guts
 Take back what's tangled up
 I wasted it on you
 Reach into her guts

 We're just rehearsing who we think we are
