

Come Back

Misfits

Come back little raven and bite my face
I've been waiting, endless waiting
Come back and bite my face

Come back little raven, descend your home
This is not then, it is not now
Come back, descend your throne

I think you realize what I've done
Well, on a corner slept my horrible corpse
I'm not alive for anyone
I think you realize what I've done

You gotta come back
You gotta come back
You gotta come back
You gotta come back

Come back little raven, here by my face
I've been waiting, endless waiting
Come back and bite my face

I think you realize what I've done
We're on the corner, slashed my heart for fun
I'm not alive for anyone
I think you realize what I've done

You gotta come back
You gotta come back
You gotta come back
You gotta come back

You gotta come back, come back, well, come back
Right back to me
You gotta come back, come back, come on back
Right back to me
You gotta come back, come back, come on back
Right back to me
You gotta come back, come back, come on back
Right back to me, yeah
