

# Death Ray

Misfits

I can't take another stare from you  
I believe that I don't care for you  
I will wait for the end of me  
Time is lost baby can't you see

I can see  
The Death Ray  
Within your eyes

I can see  
The Death Ray  
Within your mind

I can't take another stare from you  
I believe that I don't care for you  
I will wait for the end of me  
Time is lost baby can't you see

I can see  
The Death Ray  
Within your eyes

I can see  
The Death Ray  
Within your mind

I can see  
The Death Ray  
Within your eyes

I can see  
The Death Ray  
Within your mind

I'll approach  
I will see the light  
I will pass much to your delight  
Catch the ray deep inside my brain  
I will live another day
