

## Descending Angel

Misfits

Torn from the heavens, they fall from the sky  
And walk the streets among mortal men  
They hide in shadows,  
Keepers of the night

Mortal life is weak,  
Can't hold back the demons  
The blood pours as rain  
And soon you'll be alone

Descending angel  
Stand by my side  
We'll face the night  
Descending angel

We guard the gates of hell just one more night  
For in the morning will bring the light

Born and created in the image of a god  
The heavens fall no savior has been sent  
No one to guide us,  
Alone we face the night

Mortal life is brief for the rebel angels  
They make their final stand

And soon you'll be alone  
Descending angel  
Stand by my side  
And face the night

Descending angel  
We'll guard the gates of hell just one more night  
Forever ends tonight!
