

# Die Monster Die

Misfits

First things first, Ms. Monroe rises from the dead  
The henchmen came knocked down the door to my never world

I hope you die  
Die Monster die  
Die monster die  
Die monster die

First things first, we must find out which mirror evil lives  
I enter this door look into the mirrors I don't recognize this  
face that's lookin' back at me

Die  
Die Monster die  
Die monster die  
Die monster die

There's a place where the mirrors don't lie  
There's a place where the mirrors don't lie  
There's a place where the mirrors don't lie

I hope you die  
Die Monster die  
Die monster die  
Die monster die

There's a place where the mirrors don't lie  
There's a place where the mirrors don't lie  
There's a place where the mirrors don't lie  
Die monster die
