

Dust to Dust

Misfits

Hey you father
For you have sinned
Why did you love
Let this life begin

I'm not your savior
I'm not your son
A forgotten boy
Abandoned creation

With these final words I pull the switch
We turn to dust, dust to dust
My name is like the kiss of death
And when we embrace we turn to dust

With these final words I pull the switch
We turn to dust, dust to dust
My name is like the kiss of death
And we embrace we turn to dust

Turn to dust
Ooh, oh
Mother, father, you've answered me
Your soulless son, your thing that should not be
A brilliant people, upon to doubt
You gave me life, but took the soul away

With these final words I pull the switch
We turn to dust, dust to dust
My name is like the kiss of death
And when we embrace we turn to dust

With these final words I pull the switch
We turn to dust, dust to dust
My name is like the kiss of death
Ashes to ashes, dust to dust
Dust to dust

Now, we we belong dead
We belong dead, we belong dead
We belong

Oh
With these final words I pull the switch
We turn to dust, dust to dust
My name is like the kiss of death
And when we embrace we turn to dust

With these final words I pull the switch
We turn to dust, dust to dust
My name is like the kiss of death
And when we embrace we turn to dust

We turn to dust.
