We Bite

1, 2, 3, 4
We walk the streets, I'm out to get you
We bite
Just a feast of gore and blood
We bite
Carnivores live for pleasure
We bite
Strike out like a wolf's endeavor
We bite

And when I get your blood I rip your throat Your blood I rip your throat I want your blood, I rip your throat To drink some blood

We bite, we bite, we bite, we bite And when I get your blood I rip your throat Your blood I rip your throat I want your blood, I rip your throat To drink some blood

We bite, we bite And when I get your blood I rip your throat Your blood I rip your throat I want your blood, I rip your throat To drink some blood

We bite, we bite, we bite, we bite
