

Attracted

Misha

I just woke up ten minutes ago
Turned on my cell, looked out and I'm so
Unhappy that I cannot afford
To chill in my bed all day long

It is pouring out there, wind blowing out there
You're still on my mind, can't get you out of my head
Still see you in the dream that just left
Want it back

You want me, I need you
It helps me when I'm with you
Just call me, inform me that I'm what you need
So true and devoted, you're low key and honest
I'm speechless attracted to you

Walking down the street just I, myself and me
Aware of what you promised
I can see the future years
You and I together for real
Tell me what you need, I'll be all that I can be
Take care of you, admire you
Support you with your dreams
You and I together for real

I could spend my whole life with you tonight
I could spend my whole life with you

I get back home, take off my clothes
Put something light on, the downpour is gone
I'm restless as you're making me wait
For so long, oh

I can hear your steps, you knock on the door
You enter my place and you hug me so strong
You make my body shiver and so
What we do is let the passion grow

You want me, I need you
It helps me when I'm with you
Just call me, inform me that I'm what you need
So true and devoted, you're low key and honest
I'm speechless attracted to you

Walking down the street just I, myself and me
Aware of what you promised I can see the future years
You and I together for real
Tell me what you need, I'll be all that I can be
Take care of you, admire you
Support you with your dreams
You and I together for real

I could spend my whole life with you tonight
I could spend my whole life with you

Want me, I need you
It helps me when with you

I'm speechless attracted to you
