

Colors In My Life

Misha

Talk to me, speak to me
Are you still alive?
I need to know
What mood you're in for
Is it black or is it white?

Every time we have a fight
The air gets stiff and hard
You see things black
I see things white
But there are colors in our life

Did you have a bad day?
Or did I make you sad?
My face may be pale
But my soul is so colorful
So powerful

Thank you
For looking straight and deep
Into my eyes
Thank you for colors in my life

You crash my heart
You're headstrong and I
Object to what you say
Your words are soft
You're gentle to me
That colors up my ways

You're the red in me
The blue I feel
The purple in my dreams
You're a quality personality
You know that's all I need

Did you have a bad day?
Or did I make you sad?
My face may be pale
But my soul is so colorful
So powerful

Thank you
For looking straight and deep
Into my eyes
Thank you for colors in my life, oh
Thank you
For looking straight and deep
Into my eyes
Thank you for colors in my life, oh

Don't you lose it
Don't you let me strive
Colors in my life
Keep the colors in my heart
Colors in my life

Did you have a bad day?
Or did I make you sad?
My face may be pale
But my soul is so colorful
So powerful

Thank you
For looking straight and deep
Into my eyes
Thank you for colors in my life, oh
Thank you
For looking straight and deep
Into my eyes
Thank you for colors in my life, oh

Thank you
Thank you
