

Footprints In My Heart

Misha

Then you left your footprints in my heart

How can you be within the reach of my hand
And still it feels so far away
Hard to believe you are still with me today
I've let you go but you would stay

Back in the day when we started the game
You on the road all the time (all the time)
Yet I felt you were so close to me
Then you left your footprints in my heart

Then you left your footprints in my
Then you left your footprints in my
Then you left your footprints in my heart
Then you left your footprints in my
Then you left your footprints in my
Then you left your footprints in my heart

How can you be within the reach of my hand
And still it feels so far away
Hard to believe you are still with me today
I've let you go but you would stay

Back in the day when we started the game
You on the road all the time (all the time)
Yet I felt you were so close to me
Then you left your footprints in my heart

Then you left your footprints in my
Then you left your footprints in my
Then you left your footprints in my heart
Then you left your footprints in my
Then you left your footprints in my
Then you left your footprints in my heart

Let's go back to where we where

Then I felt you close to me
That time it felt so nice to me
Then I felt you close to me
Then I felt you close to me
That time it felt so nice to me
Then I felt you close to me
Then I felt you close to me
That time it felt so nice to me
Then I felt you close to me

Then you left your footprints in my
Then you left your footprints in my
Then you left your footprints in my heart
Then you left your footprints in my
Then you left your footprints in my
Then you left your footprints in my heart
Then you left your footprints in my
Then you left your footprints in my
Then you left your footprints in my heart

Then you left your footprints in my
Then you left your footprints in my
Then you left your footprints in my heart
Then you left your footprints in my
Then you left your footprints in my
Then you left your footprints in my heart
Then you left your footprints in my
Then you left your footprints in my
Then you left your footprints in my heart
