

Gratitude

Misha

I only wanted to express my gratitude
In simple words I just wanted to thank you
For opening my eyes and showing where to go
For offering your talent like you do
Some people are just born with passion in their soul
Their spirit always shining as they walk
You've got the gift of music
You make it sound like no one else
Each time I hear you play, it hits so strong

Stay who you are
You belong to the Earth
You shape my mind
You make me strong
Stay who you are
You belong to the Earth
You've shaped my mind
I'm not afraid anymore

Though our ways will maybe never cross again
Heaven didn't mean us to be together
I'll treasure all the wisdom and advice you gave
I'm keeping you inside my heart forever
Thanks to you I finally touched the higher ground
My faith in human spirit returns to me
My inspiration lost is back with you I found
Discovering all things that I could be

Stay who you are
You belong to the Earth
You shape my mind
You make me strong
Stay who you are
You belong to the Earth
You've shaped my mind
I'm not afraid anymore ...

I only wanted to express my gratitude
