

I've Got To Play You

Misha

You're in my car
Everywhere I drive
You're the thing
I can't be without
You are my strength
The blood in my veins
I've got to play you, oh

You're my help
My encouragement
When I feel bad
When I'm under stress
When I go to sleep
When I wake up
You are the thing I need

See, I've got to play you, oh
You see, I've got to play my soul
I need you bad (some need it quiet)
You're in my head (but I need it loud)
I've got to play you

It's time to leave
It is getting late
I should go
But I feel so great
I'm in the mood
For the groove
I've got to play it, uuh

The music is
Power in my life
It's the thing I can't be without
Come, take away
All that I have
But let me play it

See, I've got to play you, oh
You see, I've got to play my song
I need you bad (some need it quiet)
You're in my head (but I need it loud)
I've got to play you

See, I've got to play you, oh
You see, I've got to play my song
I need you bad (some need it quiet)
You're in my head (but I need it loud)
I've got to play you, oh

The world without you
The world without you
World without you
The world without you
Some need it quiet
But I need it loud
You feed my soul

The world without you (you are my inspiration)
The world without you (you are my imagination)
World without you (you feed my soul)
The world without you (you feed my soul)

See, I've got to play you, oh
You see, I've got to play my song
I need you bad (some need it quiet)
You're in my head (but I need it loud)
I've got to play you

See, I've got to play you, oh
You see, I've got to play my song
I need you bad (some need it quiet)
You're in my head (but I need it loud)
I've got to play you, oh

The music is power in my life
The music is power in my life
