

Let Me Make Your Life

Misha

You're burning in passion like molten lava
Blood in your veins like a river wild
See dots in my eyes so beautiful
I'm breathing so fast
Your body, my lips

You're boiling inside
I'm burning
No matter if still or moving, moving
I know for sure without you
I feel so incomplete
My life is incomplete

I'm sick and tired of making everybody's day
Let me make your life instead
I'm sick and tired of making everybody's day
Oh, let me make your life instead

I'm not putting on a show for you
Because you love the real me
And when I sing to you
That's from my heart
Those words are true
That's what I mean

You're boiling inside
I'm burning
No matter if still or moving, moving
I know for sure without you
I feel so incomplete
My life is incomplete

I'm sick and tired of making everybody's day
Let me make your life instead
I'm sick and tired of making everybody's day
Let me make your life instead

Let me make your life
Let me make your life
Let me make your life, yeah
Let me make your life
Let me make your life
Let me make your life, yeah

I don't have to fantasize
My heartbeat is still racing
Your touch is a shortcut to happiness
I don't have to fantasize
My heartbeat is still racing
It's gonna take me places

I don't have to fantasize
My heartbeat is still racing
Your touch is a shortcut to happiness
I don't have to fantasize
My heartbeat is still racing
You're gonna take me places

I'm sick and tired of making everybody's day
Let me make your life instead
I'm sick and tired of making everybody's day
Let me make your life instead
