

Music

Misha

Sitting across the way I'm watching them play
Taking all it gives to me
Floating on the tunes I hear I feel it's my day
Cause I'm getting what I need

There is nothing better to clear my mind
Nothing more obvious to do when I'm blind
It's in my head, can hardly breathe without it
It's on my mind, can't even think without it

What would I do if I didn't have music
What would I do if there was nothing to play
What would I do if I didn't have music
The songs I like, the songs I sing
What would I do if I didn't have music
What would I do if there was nothing to play
What would I do if I didn't have music
The songs I like, the songs I sing

Even today when I sit by a fireplace
It makes this beautiful vinyl record sound

It's unbelievable, how much it can give me
How happy it can make me feel
I get sad and confused
When no one can help me
I play some music and it's clear

Though I spent my childhood
Playing around
Chasing friends all around the house
Screamed and smiled
I always felt the need to share my feelings
I Always hoped to get on stage and sing it

What would I do if I didn't have music
What would I do if there was nothing to play
What would I do if I didn't have music
The songs I like, the songs I sing
What would I do if I didn't have music
What would I do if there was nothing to play
What would I do if I didn't have music
The songs I like, the songs I sing
What would I do if I didn't have music
What would I do if there was nothing to play
What would I do if I didn't have music
The songs I like, the songs I sing
What would I do if I didn't have music
What would I do if there was nothing to play
What would I do if I didn't have music
The songs I like, the songs I sing

It's in my head, I can't breathe without it
It's on my mind, I can't think without it
It's in my head, I can't breathe without it, ooh
Oooooh, I can't breathe without it
