

# Proud

Misha

Oooh, so proud  
You made me so proud, proud

What a cute boy you were  
I was about twelve, naive and innocent  
A little too proud of myself  
You stepped into my world  
And teased me, ignored me  
And laughed at me  
But unconsciously adored me

Then the time passed  
And while I was being taught  
To spread my wings and fly  
You far away were struggling  
And fighting and looking for your place in life  
For your place in life

And look at you now, look what you've become  
By every step you make you take my breath away  
So sure, self-confident, I'm proud in every way  
I'm proud in every way, I'm proud

You make me proud, make me so proud  
Proud when I walk with you  
When I'm alone with you  
You make me proud, make me so proud  
Proud when I walk with you  
When I'm alone with you

Proud, proud, you make me proud  
So proud

You have a lot by knowing who you are  
Being by my side you make me learn so much  
Won't let you go this time like 15 years ago  
When I thought it was just a crush

And look at you now, look what you've become  
By every step you make you take my breath away  
So sure, self-confident, I'm proud in every way  
I'm proud in every way, I'm proud

You make me proud  
Make me so proud (so proud of you)  
Proud when I walk with you, when I'm alone with you  
You make me proud, make me so proud (make me so proud)  
Proud when I walk with you  
When I'm alone with you

So proud, proud...  
When I'm alone with you oooh,  
Oooh, so proud, you make me so proud  
So proud... oh, you make me so proud  
You make so proud  
I'm proud of you, so proud of you  
You make me proud, so proud... oooh
