

Wish

Misha

I wish I could one day
Find the memories in my brain
In search for peace

The world seemed the best in the place
We had running across the fields
Hidden behind the trees

Now you see the world has changed
Still searching for the fantasies
I had as a girl

Grown up we know we can lose
The game is hard to play
But you need to trust in you

I thought I had to be
The girl they all wanted me to be
They got me going crazy
I almost lost everything, oh

Now it's up to me to choose
Somehow I feel I won't lose
My hopes help me fight

Thank God I found the stream
It was so hard to get up and leave
Now I'm sure it's right

I thought I had to be
The girl they all wanted me to be
They got me going crazy
I almost lost everything, oh
