

You Alleviate My Pain

Misha

How can you survive
The emptiness inside
How can you tolerate the time
Days rolling by
Make the sun stop shine
The rain clouds
Drown through my mind

You're the one who keeps the dark away
(dark away)
You're the one who makes my rivers float ahead
(you make my rivers float ahead)
With your voice I'll make it through the day
You alleviate my pain

All the dreams we shared
All the years we spent
You knew how I loved you
I felt strong
Just like the trees
Change the colors of their leaves
(we change) we change
We stay alone

You're the one who keeps the dark away
(dark away)
You're the one who makes my rivers float ahead
(you make my rivers float ahead)
With your voice I'll make it through the day
You alleviate my pain
(you alleviate ... my pain)

My pain

How can you survive
The emptiness inside
How can you tolerate the time
Days rolling by
Make the sun stop shine
The rain clouds
Drown through my mind

You're the one who keeps the dark away
(dark away)
You're the one who makes my rivers float ahead
(you make my rivers float ahead)
With your voice I'll make it through the day
You alleviate my pain

You're the one who keeps the dark away
(dark away)
You're the one who makes my rivers float ahead
(you make my rivers float ahead)
With your voice I'll make it through the day
You alleviate my pain
(you alleviate ...)

The sun
Stop shine
You alleviate my pain

The sun
Stop shine
