

My Love Goes With You

Mishka

If there was one song that I could sing to help you through each and every day
I would sing a song to remind you that we're only ever living for today

My love goes with you yeah
In all that you do
My love goes with you yeah
In all decisions that you make

Well sometimes we get so tired of the struggle it seems as if there's no way out
Mm so caught up in desire it's so hot there in the fire and you're lost in doubt

My love goes with you
In all that you do
My love goes with you yeah
In all decisions that you make

In every book you read and in every glass of water that you're drinking
In every breath your breathing and in every little thought that you're thinking
I hope that you can find a little free time for yourself
I hope that you can find a little music after your own heart

Cause my love goes with you
In all that you do

I hope that you can find the balance between the mystic and mundane
I hope that you can navigate your way between the sacred and profane
Yes I hope that you can find your vision between the sunshine and the rain
That you find your truth and when you do it doesn't cause you too much pain

Cause my love goes with you yeah
In all that you do
My love goes with you
In all decisions that you make
Yeah my love goes with you
My love goes with you

Yeah you know I get so concerned and I wonder how you're gonna make it
If I can't be there for you all the time how you gonna take it
And then I don't worry no
Cause my love is strong
Then I don't worry no no no
My love for you lives on and on and on

Yeah my love goes with you
In all that you do
My love goes with you yeah
In all decisions that you make

My love goes with you
Everywhere you go
My love goes with you
My love goes with you
