

# No Need To Worry

Mishka

Could you imagine  
Everything's just good  
And could you start living  
That you're not the only fool

No need, no need to worry  
Just  
No need, no need to worry  
Couse you're only in the flow

Could you realize  
When you're standing in the greenest feild  
Nothing left to desire  
All your wounds are healed

No need, no need to worry  
Just take it slow  
No need, no need to worry

No need, no need to worry  
Couse you know, what to know  
No need, no need for hurry  
Couse you're already in the flow  
Yeah you're already in  
The flow
