

## Distant Love

Mishon

In the middle of the night, I toss and turn like crazy.  
I'm thinking about you baby and where I want you to be (Oh)  
I know you're gonna pay your price, so much I can't afford it.  
The pain I can't ignore it, it'd only hurt you to see (Yeah)  
Hit it up, without you I'm lonely.  
Your love is just too distant for me.

Your distant love left all this space between us.  
And you're the one I need to hold now, I want to be with you but don't know how.  
Your distant love left all this space between us.  
And you're the one I need to hold now, cause without you I feel so down.

I don't want to hang up the phone but I don't want you to hear me crying.  
And if I said I was strong, I was lying. Girl I need you here.  
(Oh)  
And I thought I could make it but I doubt my heart can take it.  
We're in two different places, and it's all I can bear.  
Hit it up, without you I'm lonely.  
Your love is just too distant for me.

Your distant love left all this space between us.  
And you're the one I need to hold now, I want to be with you but don't know how.  
Your distant love left all this space between us.  
And you're the one I need to hold now, cause without you I feel so down.

Girl you hold the missing pieces (Pieces) to the puzzle of my heart.  
Could you show me where to start, I'll be there for you.  
If there's something I can add, if there's one thing I can have  
(Oh)  
Baby, I can't take this distant.

Your distant love left all this space between us.  
And you're the one I need to hold now, I want to be with you but don't know how.  
Your distant love left all this space between us.  
And you're the one I need to hold now, cause without you I feel so down.

(You're making it so hard for me to breathe, everytime you leave.)  
(I don't want to hold no one)
