

Holiday Love

Mishon

I know you wonder, where the love is coming from
All around ya, you can feel it in the air
And in your heart (your heart)
It's the greatest feeling in the world
When your with the ones you love

Don't you wish it was like this everyday of the year
Smiling faces everywhere so much laughter and cheer
Holiday love, I can feel the love
Holiday love, can you feel the love
So if you ever feel alone, know your always welcome home
For holiday love, I can feel the love
Holiday love, can you feel the love
Every boy and every girl, everyone around the world
Give holiday love

If you miss your family, don't let the distance keep you apart
Just know, wherever you are
is never too far
It's the greatest feeling in the world
To your with the ones you love

Don't you wish it was like this everyday of the year
Smiling faces everywhere so much laughter and cheer
Holiday love, I can feel the love
Holiday love, can you feel the love
So if you ever feel alone, know your always welcome home
For holiday love, I can feel the love
Holiday love, can you feel the love
Every boy and every girl, everyone around the world
Give holiday love

Holiday love, I can feel the love
Holiday love, can you feel the love
So if you ever feel alone, know your always welcome home
For holiday love, I can feel the love
Holiday love, can you feel the love
Every boy and every girl, everyone around the world
Give holiday love
