## **Just A Kiss**

We ain't gotta go all the way But, baby, we can do somethings A little game I like to play Listen, shawty

We ain't gotta go all the way But, baby, we can do somethings A little game I like to play

Girl, you don't need to be nervous I know I just met you, these other girls lookin' But I never disrespect you, babe This's gonna be okay, yeah

You was pretty as a picture I want you in my room You whisper in my ear I don't wanna move too soon, okay This's gonna be okay, yeah

Ooh, your body's soft Now take that jacket off I think we gon' be good friends, yeah

Shawty, no need to be scared If you don't wanna go there No days before we begin We ain't gotta go

We ain't gotta go all the way But, baby, we can do somethings A little game I like to play

Just a kiss, just a kiss, just a kiss Ooh, girl Just a kiss, just a kiss Can we play, can we play?

And we're flirtin' and jokin' And I can see that you're open Everything I'm doing I can tell that you love it, babe You like the way we play

So we touchin' and teasin' Now you got me feelin' We both know we want The next step for pleasin', babe But we can wait another day

Ooh, your body's soft Now take that jacket off I think we gon' be good friends

Shawty, no need to be scared If you don't wanna go there No days before we begin
