

Real Love

Mishon

Girl I know, that you ain't ever had this kind of love before
But girl I got you, you ain't gotta search no more
Your in love, your in love, your in love, right here

And girl I, know them other dudes you been with never treated you right,
Cause all they really wanted was you just for one night,
But I'm so different, let me show you
Oh baby open your eyes

If your looking for real love,
Girl I'm in your face, baby I'm in your face
If your looking for real love, girl I'm in your face, face

Girl I know that you did have your heart broken many times
And girl I promise I will never cross that line
I'm gonna treat you good, I'm gonna treat you right

Girl I know, them other dudes you been with never treated you right
And the only thing he wanted was you for one night
But I'm so different, let me show you,
Oh baby open your eyes

If your looking for real love, girl I'm in your face, baby I'm in your face
If your looking for real love, girl I'm in your face, face

You think I'm playing with you, but this is serious
I put that on everything this is the real kind of love
I love you more than I ever loved anybody before (hey)
Girl won't you open your eyes

If your looking for real love, girl I'm in your face, face
If your looking for real love, girl I'm in your face, face
