

## Devil's taken her man

Miss Li

The devil's taken her man  
The devil's taken her man  
He's gone every night,  
When he's home they're just fighting,  
He used to be her only friend.

The devil's taken her man  
The devil's taken her man  
He's beating her up and one day he can't stop,  
He hits her 'til she's lying down,

It's cold like a desert in the night,  
It's cold and no one can hear her cry,  
It's cold like a desert in the night,  
It's cold and it's white,

The devil's taken her man  
The devil's taken her man  
The silence is loud,  
And his knife cuts the sound,  
He's leaving her cold on the ground.
