

High On You

Miss Li

I get high on you baby
And I don't think we should wait (2x)

Every little day
Every other little daaaay
You take my breath away in
Every little way
Every other little waaaay
It feels so good and

I get high on you baby
And I don't think we should wait (2x)

Every little night
Every other little night
I dream of you and
Every little time
Every other little time
It feels so good and

I get high on you baby
So I don't think we should wait (2x)

No I don't think we should wait (2x)

I get high on you baby
So I don't think we should wait (2x)

No I don't think we should wait
