

## Is This the End

Miss Li

You said you needed some time to clean up the mess  
The mess in your mind  
And then you turned your head around  
And moved your hand away from mine

And I was trying to act as good as I could  
And I tried to look just as cute as I could be  
Though I could hardly breathe  
Is this the end of you and me?

We went out for a walk and you was so quiet  
And I heard myself talk  
Going on and on about the happy times we shared so far

How could you say you need some time to clean up the mess?  
The mess in your mind  
But don't you care about the mess that you just brought to me?

And I just wanna shout and scream  
Please don't leave  
Is this the end of you and me?

How could you say you needed some time to clean up the mess?  
The mess in your mind  
So don't you care about the mess that you just brought to me?

Because I just wanna shout and scream  
Please don't leave  
Is this the end of you and me? x8

You said you needed some time  
And I guess this is the end..
