

My Heart Goes Boom

Miss Li

I don't need no doctor treating me I don't need no pills or the raphy Freud might work for some But that just ain't for me No, I don't need no pills if you're just coming back to me!

cos when I'm with you baby (oh I am) I am feeling less confused
And my heart goes boom boom boom

I don't need to cross the 7 seas I don't need to write a master piece And I don't need to play a role on a fancy silverscreen No, I don't want to die alone rich and unhappy

Cus when I'm with you baby, oh my my whole world starts to bloom All I ever want to do Is to lay here next to you When I'm with you baby (oh I am) I am feeling less confused And my heart goes boom boom boom

Cos I need a little ah ha And I need a little ah ha

Cos when I'm with you baby, (oh I am) I am feeling less confused All I ever want to do is to lay here next to you Yeah, when I'm with you baby My whole world starts to bloom all I ever want to do is to spend my time on (with) you And my heart goes boom boom boom And my heart goes boom boom boom

And my heart goes boom boom boom And my heart goes boom boom boom And my heart goes boom boom boom And my heart goes boom boom boom And I need a little ah ha Yes I need a little ah ha Cos I need a little ah ha yeah, I need a little a ha
