

Every Time

Miss Montreal

Every time I see you
The border slips away
The line moves further
Another language
Your face is fading today

I can't see you now
Can't see you now

And the best time must come yet
I'll never forget that you'll take me away from here
And the best time must come yet
I'll never forget that you'll take me away
But it's all in me

Every time I want you
The clouds are getting darker
The shade watches over me
I can't wait to leave this place to go to you
And just embrace the times you're with me

I can't see you now
Can't see you now

And the best time must come yet
I'll never forget that you'll take me away from here
And the best time must come yet
I'll never forget that you'll take me away
But it's all in me

And the best time must come yet
I'll never forget that you'll take me away from here
And the best time must come yet
I'll never forget you
You
You

You
You
You

But it's all in
Yeah it's all in
Yeah it's all in, in me
