

# The Enthusiast

## Mission of Burma

Da da da da da da da da da da da da da da da da

Da da da da da da da da da da da da da da da da  
Da da da da da da da da da da da da da da da da  
Da da da da da da da da da da da da da da da da

Now we know the way  
So just enjoy the wait  
Admire the plate  
While you nibble on the bait  
Every time you fly  
You know you gotta land  
I can't wait  
But who can

And if you're not watching  
The... defense  
Soon you can taste it  
And feel it and hear it  
On a scale of one to ten  
It was a, a forty-nine  
I missed that moment I was elsewhere at the time

Are you psyched  
Are you high  
Are you psyched  
Are you high

I'm as high as a kite on a windless night  
I'm as high as a kite on a windless night  
Oh I'm as high as a kite on a windless night  
And when I'm done

Up up up and away  
Every time you ask me I just don't know what to say  
Peaking up the valleys it's how you set your mind  
And it's a way of living it comes forward at the slide

I'm gonna wait and see  
And then I'll let you know  
Do you love it enough to let go  
Do you love it enough to  
Let go

Are you psyched  
Are you high  
Are you psyched  
Are you high  
Are you high

I'm as high as a kite on a windless night  
I'm as high as a kite on a windless night  
I'm as high as a kite on a windless night  
I'm as high as a kite on a windless night  
Oh I'm as high as a kite on a windless night  
Oh I'm as high as a kite on a windless night  
A windless night
