

# It's Real

Missy Elliott

Yeah, ohhh-ohh  
Yeaahhh, yeaaa  
I love you more then my mouth can say  
I'll take a flight to kingston, anyplace  
Just to be in yo face  
From new york city to japan  
I'll be there ba-by  
Just call my phone and I'll come flying  
On the next plane to you  
Never worry cause I'm ya woman  
And I promise ba-by  
I promise you will be my man  
Cause baby it's real (real)  
So real (so real)  
Can't you tell by the look in my face, yeah  
Oh baby it's real (it's real)  
So real (so real)  
I hope your feeling the same  
Cause baby it's real  
I'll follow you right to the moon  
It could happen yeah  
Just so we can be close as cousins  
With my heart out to you  
I love you more then words can offer  
Pay attention ba-by  
I hope this never ends my lover  
Cause baby it's real (it's real)  
So real (so real)  
Can't you tell by the look in my face, yeah  
Oh baby it's real (it's real)  
So real (so real)  
I hope your feeling the same  
Cause baby it's real  
I don't wanna spend a day without you  
I don't get tired of being by you  
I don't care bout the things about you  
Boy it's real  
So real, so real (so real)  
Can you tell by the look in my face, yeah  
Oh baby it's real (it's real)  
So real (so real)  
I hope your feeling the same  
Cause baby it's real
