## Toyz

**Missy Elliott** 

Whatchu mean I don't need you no more? Cause I don't! I gotta bag full of toys and I don't need none of your boys So you can hit every chick on the block Cause I'm gone be alright once I turn this power on, ya dig?

Toys! You don't get the job done when I need a little loving So I gotta do it myself if I wanna feel something So I grab me a toy, 'lil boo ain't buggin' Now I want some affection and you ain't giving me nothing

A toy, every girl must have a toy The way it make you feel Every girl has a toy now, baby! A toy, every girl must have a toy The way it make you feel (Uh, c'mon!)

I keep my butterfly close when you ain't wanna be bothered Don't come waking me up, cause I ain't giving you nada Cause I got me a toy (Tooooy) And it works for me and it lasts longer than the battery So you best believe that

I used to wish that you would love me And fantasize on how we used to be Until I discovered something better than you I don't need, no need, your loving You wanna come home late at night touchin' and feelin' all over me But I don't need no help in pleasing me Oh!

How could I miss you baby, I didn't even know you was gone It's obvious you aren't needed in the bedroom anymore I'm just keeping myself occupied like all women do when they ar e taking a bath And when you leave, make sure you don't slam the door because y ou fuck up my concentration
