

## Sugarcane

Missy Higgins

Baby ballerina's hiding  
Somewhere in the corner  
Where the shadow wraps around her  
And our torches cannot find her

She will stay there till the morning  
Crawl behind us as we are yawning  
And she will leave our games  
To never be the same

So grow tall, sugarcane  
Eat that soil, drink the rain  
But know they'll chase you  
If you play their little games  
So run, run fast, sugarcane

You see my peep show booth is handy  
There's a one way only mirror  
So I can dance here with my hair down  
But I don't see if you get bitter

And there's a button right beside me  
If I happen to want a wall to hide me  
If only the ballerina had one too

So grow tall, sugarcane  
Eat that soil, drink the rain  
But know they'll chase you  
If you play their little games  
So run, run fast, sugarcane

And she said, "Always be afraid"  
Yes, she said, "Always be afraid"

So grow tall, sugarcane  
Eat that soil, drink the rain  
But know they'll chase you  
If you play their little games  
So run, run fast, sugarcane

Yeah, you'd better run, run fast, sugarcane  
Yeah, you'd better run, run fast sugarcane
