

## The Cactus That Found the Beat

Missy Higgins

Somebody said can ya find the way to God,  
I said I found my way in beat dap-in-do-pa  
That's how I found my way to God.  
Walking down the street sayin' hi hello,  
But how far do you think I can god  
Before I start having to sing ya the blues dap-in-boo-pa  
Tapping to the beat, singing hi-di-ho,  
But how long do you think I can go  
Before I start having to get in the groove dab-in-do-ba  
'cause I know that there will always be a life for me  
Because I found my place in history,  
As a lover of the beat dap-in-do-ba,  
That's how I found the way to God.  
So your sittin in your seats, and tapping your toes,  
How long do ya think you can hold,  
Before you start having to join in my groove dap-in-do-baa  
'cause there's a beat in my feet  
As I tumble the seas  
And the waves of ecstasy  
And can you feel the vibe  
Does it move you inside  
Like the way it does to me  
'cause I know, that there will never be a doubt in me  
'cause Momma told me it was meant to be  
I found my baby in the beat dap-in-do-ba,  
That's how I found my way to God  
Oh yeah  
That's how I found my way to god  
Oh whoa  
That's how I found my way to god
