

## The Old Star

Missy Higgins

Touch down on the old star  
Scan to the left, scan to the right  
Little to report but dust and rubble  
Little to report  
Ash and ice

Report back from the old star  
Scan to the east, scan to the west  
Signs of struggle, human belief  
They were not of nature  
But elite  
So sad

Tears for the old star  
So sad  
Tears, tears, tears  
Tears for the old star  
Tears  
Tears for the old star  
Tears for the old star

Last report from the old star  
Scan to the north, scan to the south  
Everything here was once perfection  
Everything here destroyed by self  
So sad  
So sad

Tears, tears for the old star  
Tears for the old star  
Tears  
Tears for the old star  
Tears, tears, tears  
Tears for the old star  
Tears  
So sad  
Tears for the old star  
Tears for the old star
